

Meeting Professionals,

Karl Mecklenburg was the presenter for the AHRMM18 closing General Session. He did a great job sending our members off motivated, inspired and ready to put into action the knowledge they had attained at our Conference. We had a conference call with Karl beforehand to discuss our needs for his Session. Karl's Six Keys to Success presentation was tailored to fit the Healthcare Supply Chain industry and was a big hit with our attendees. Karl flew in early to sign autographs and meet and greet our members. He had three different time slots for the book signing and our attendees loved it. He took out time to talk, take photos and sign his book. Karl also gave us one of his signed jersey's that we gave away in a drawing to one of the attendees. He attended AHRMM's Chair Reception the night before his speech. Our members love that he was available to interact with and pose for photos. Karl was early and very professional in his approach and interactions with the AHRMM staff and attendees. I highly recommend Karl Mecklenburg as a keynote speaker.

Thank you
