Agriculture leaders,

Crop Production Services holds a yearly award meeting to recognize our top 25 sales leaders for Dyna-Gro Seed, CPS's proprietary brand. As a special treat for our attendees we brought in Karl Mecklenburg to speak. Karl's presentation was perfect for this event. He did a wonderful job of tying in our theme, "Think Big Summit", and our goals for the event, with his special brand of storytelling and humor. Mecklenburg came early to listen to our industry speakers, and referred to their presentations in his talk. He spent time with attendees both before and after his speech signing autographs and posing for photos.

Feedback from our team included: "Great speaker for our event. Karl tied it all together." "Karl's enthusiasm was evident from the start of his talk to the very end." "Fun, entertaining and inspirational, both professionally and personally."

Karl's down to earth demeanor and professionalism made him easy to work with. Mecklenburg will be at the top of our list for future CPS events.
